

Creating a Home Valuation App

1

Click **Lead Capture Apps**.

2

Click **+Create**.

The screenshot shows the TotalExpert dashboard. On the left is a dark sidebar menu with 'Lead Capture Apps' highlighted and a '1' badge. The main content area has a '+ Create' button with a '2' badge and a 'Create App' button. Below is a table with columns for 'Page Name', 'Link', and 'Lead Source'.

Page Name	Link	Lead Source
779 Summer Brooke Court	View Page	799 Summer Brooke Court
779 Summerbrooke Court	View Page	779 Summerbrooke Court
21047 Karoline Court N - ght	View Page	21047 Karoline Court N - ght
770 Summerbrooke Court - 654564	View Page	770 Summerbrooke Court - 654564

3

Select **Home Valuation** Layout.

4

Enter a page name.

5

Create a source.

6

Add your Loan Officer.

7

Click **Save Landing Page**.

The screenshot shows the 'Page Settings' form in TotalExpert. The sidebar menu has 'Lead Capture Apps' highlighted with a '7' badge. The form includes fields for Layout (Home Valuation), Page Status (Active), Page Name (15020 N 54th Place), Website Domain, Website Address, Lead Source (15020 N 54th Place), Page Title, Page Subtitle, Lender (Maria Lenderton), and Agent (Reba Realtor). To the right is a preview of the app showing a house with a 'What Is Your Home Worth?' overlay and a search bar.
