

Open House Lead App

1

Click **Lead Capture Apps**.

2

Click **Creat**.

The screenshot shows the TotalExpert dashboard. On the left, a dark sidebar menu has 'Lead Capture Apps' highlighted with a red circle '1'. The main content area shows a '+ Create' button with a red circle '2' and a 'Create App' dropdown. Below is a table with columns for 'Page Name', 'Link', 'Lead Source', and a status column.

| Page Name | Link | Lead Source | |
|---------------------------------|---------------------------|---------------------------------|---|
| 779 Summer Brooke Court | View Page | 799 Summer Brooke Court | H |
| 779 Summerbrooke Court | View Page | 779 Summerbrooke Court | O |
| 21047 Karoline Court N - ght | View Page | 21047 Karoline Court N - ght | O |
| 770 Summerbrooke Court - 654564 | View Page | 770 Summerbrooke Court - 654564 | O |

3

Select **Open House** layout.

4

Use the address as the page name.

5

Create a lead source with using the address as the name.

6

Select lender and agent.

7

Create title.

8

Change background if you would like.

The screenshot shows the 'Page Settings' and 'Example' views for an Open House Lead App. The 'Page Settings' panel on the left includes fields for Layout (Open House), Page Status (Active), Page Name (4545 West 18512 North), Website Domain (sites.totalexpert.net/), Website Address (4545-west-18512-north-368951), Lead Source (4545 West 18512 North), Page Title (Welcome! Please sign in below), Lender (Maria Lenderton), Agent (Reba Realtor), and Background Image. The 'Example' view on the right shows a mobile app interface with a search bar, input fields for Name, Phone, and Email, a registration form, and agent profiles for Anna Realtor and Jennifer Richardson.
